Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from America s Children The statistical results compiled by the Bureau of the Census constitute a tremendous mass of detailed information about the population of the United States and its characteristics and economic activities. To meet the requirements of government agencies, business concerns, and investigators of social problems and to satisfy the needs of individual citizens, facts must be gathered and published, showing the distribution of the population in each large and small political unit with respect to age, sex, color, marital status, occupation, income, education, national origin, and other characteristics. This information provides the basis for apportionment of representatives in Congress, for answering many questions by direct reference, and for formulating many plans, at least in preliminary form. It is the first business of the Bureau of the Census to put into print the census results that directly answer as many such questions as possible. Along with these results, similar data from one or two previous censuses are usually included. Limitations of time, space, and money prevent any extensive statement of the relations between particular results, the long-term trends of significant totals and subtotals, the shifting proportions of the people belonging to different categories, various interesting and important relations such as those between income, occupation, and age. It is not that the Bureau of the Census fails in any sense to appreciate the value and need for such analyses, but rather that it must concentrate on its basic concern with the summary statistics that constitute its unique contribution to knowledge. When plans for the 1950 Census were made, the need for more extensive analysis was recognized and a series of census monographs similar to those...
