Under God: Religion and American Politics

By Wills, Garry

Simon & Schuster, 1990. Soft cover. Book Condition: New. 445 pages. From Publishers Weekly: Explicating his theory that religion is an inextricable element of American political life, Wills sheds new light on the 1988 presidential campaign. While George Bush wooed Jerry Falwell and extolled patriotism, religion, law and order, Jesse Jackson and Pat Robertson--both ordained ministers, both from the South, both advocates of a moral revival--represented antipodal political extremes. The "secularity" of Michael Dukakis's campaign came across in his "pinched ideal of politics," while Gary Hart, a product of Yale Divinity School, failed to find "a new moral language" to account for personal indiscretions. Wills (*Reagan's America*) writes incisively of Mario Cuomo's stand on abortion and of Robert Bork, "a friend of censorship." He gives his central thesis historical ballast; for example, Abraham Lincoln saw the Civil War as an act of "expiatory suffering," and deist Thomas Jefferson in his private writings revealed his enthusiasm for Jesus's ethical doctrines. Reviews

Complete guideline! Its this type of great read through. it absolutely was writtern quite perfectly and helpful. I am very happy to explain how this is basically the best book i actually have read through during my personal life and can be he very best book for at any time.

-- **Joshua Gerhold PhD**

A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.
