Instructions to cover every emergency that the warden will have to meet cannot, of course, be given, but the application of the policy here outlined to local conditions, should lead to a more hearty cooperation between the wardens and the public, and result in a more uniform enforcement of the forest law and a greater efficiency in fire protection work. The handbook contains the full text of the forest laws, arranged in a form convenient for reference use, together with opinions of the Attorney General in digest form, relative to several important sections.
