The use of water for these two important industrial purposes frequently interferes seriously with its natural flow and causes great loss to property largely dependent for its value upon the continuance of this natural flow. The discussion of the various claims put forth by these conflicting interests has produced an extensive literature. It is the purpose of this list to bring together the more important of these discussions, and to point out, by means of a comprehensive analytical index, where information on any phase of the subject, even the minutest, may be found.
