Reviews

This is the finest book i have got go through right up until now. I have got read and i also am confident that i am going to planning to read once again yet again in the future. You will not truly feel monotony at at any time of the time (that's what catalogs are for about if you check with me).
(Taylor Medhurst)

AIR POLLUTION: EFFORTS TO CONTROL OZONE IN AREAS OF ILLINOIS, INDIANA, AND WISCONSIN: RCED-88-46BR

[DOWNLOAD](#)

Bibliogov, United States, 2013. Paperback. Book Condition: New. 239 x 180 mm. Language: English . Brand New Book ***** Print on Demand *****.In response to a congressional request, GAO evaluated Environmental Protection Agency (EPA) and state efforts to control hydrocarbon emissions in southeastern Wisconsin, northeastern Illinois, and northwestern Indiana, to determine: (1) whether Illinois and Indiana are contributing to Wisconsin's ozone problems; (2) why the two states have not obtained EPA approval of their ozone control plans; (3) why EPA failed to develop plans for the two states; (4) whether the EPA process for determining air quality violations across state lines is useful for ozone; (5) whether EPA uniformly implements construction bans nationwide; and (6) whether factories within the three states emit significant amounts of hydrocarbons. GAO found that: (1) because of the complexity of ozone formation, EPA officials and the states were unable to determine the exact source of Wisconsin's ozone problems; (2) EPA officials and the states agreed that industrial pollution from Chicago and northwestern Indiana may have contributed to the ozone problems in two Wisconsin counties; (3) Illinois and Indiana disagreed with Wisconsin on the effects of their emissions on Wisconsin's ozone level; and (4) EPA believes that industrial emissions from Wisconsin could also be significantly polluting its air. GAO also found that: (1) EPA did not fully approve the Indiana and Illinois ozone control plans because they failed to implement federal requirements for vehicle inspection and maintenance programs; (2) both states passed legislation implementing the measures to reduce the levels of industrial pollutions affecting the ozone layer; (3) EPA proposed to ban the construction or modification of factories that would produce large amounts of ozone until it fully approved the states ozone plans; and (4) Congress recently enacted legislation prohibiting EPA from imposing...
