Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

Brand New Book ***** Print on Demand *****.Waking the Machine is the first book in The Panopticon Trilogy. Countless American citizens are killed by the acute effects of the blast and from high doses of weaponised radiation. It is the first ship to return to earth after the quarantine period, crash-landing amongst the ruined buildings of Washington's Watergate Complex and ushering in the first hour of the Lazarus Era. In the years that follow a vengeful, paranoid America loans money from its allies and builds the Citadel: a city stronghold surrounding the remains of Lazarus. Soon they rejoin the Western Alliance (North America, Europe, Canada, Africa, India and Australia), and, in attempt to regain their national standing, become embroiled in the Second Great Energy War. Their opponents are, once again, the Asiatic Forces (Pakistan, Russia, China, Japan, Vietnam and Indonesia). Only this time it's not just a struggle for diminished stores of fossil fuels. Instead the president is convinced that the Asiatic Forces are not only withholding Intel about the Omega Event, but are also protecting those responsible. After several small-scale attacks on the Citadel they're convinced that BOB was detonated by an...
