

Primary Liver Cancer in Japan

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Book Condition: New. Publisher/Verlag: Springer, Berlin | Hepatocellular carcinoma (HCC) is common in the Far East and South Africa, but is rare in the United States and Europe. The vast experience of the East, which has led to marked improvement in the prognosis of patients with HCC, is made available to researchers worldwide in this monograph. The book is based on an enormous amount of data that has been collected and analyzed by the Liver Cancer Study Group of Japan. The data stems from a survey on HCC in Japan since 1965 and contains information from more than 30,000 patients with regard to age distribution, past medical history, diagnostic procedures, frequency of HBV-associated antigens and antibodies, surgical and conservative treatments, gross anatomical and histological features of the tumors, pathology of the noncancerous portions, distant metastasis, and survival rate. This data is a tremendous contribution to our understanding of the epidemiology, pathology, and the latest developments of the molecular biology and clinical problems of primary liver cancer. | 1 Epidemiology.- 1 Epidemiology of primary liver cancer.- 2 Pathology.- 2 Pathology of primary liver cancer.- 3 Hepatocellular carcinoma in the early stage.- 4 Pathomorphology of advanced hepatocellular carcinoma.- 5 Pathology of cholangiocellular carcinoma.- 3 Etiology.- 6 Historical overview of research into the etiology of hepatocellular carcinoma.- 7 The role of HBV in hepatocellular carcinoma.- 8 Hepatitis C virus infection and hepatocellular carcinoma.- 9 Molecular biology of hepatitis B virus and hepatocellular carcinoma.- 4 Diagnosis.- Section 1 Clinical features and diagnosis.- 10 Clinical features and diagnosis of primary liver cancer.- Section 2 Diagnostic imaging.- 11 An overview of diagnostic imaging techniques for detecting hepatocellular carcinoma.- 12 Ultrasonographic diagnosis of hepatocellular carcinoma.- 13 Diagnosis of primary liver cancer by computed tomography.- 14 Diagnosis of primary liver cancer using magnetic resonance imaging.- 15 Hepatic angiography...
