Reviews

This is the finest book I have got go through right up until now. I have got read and I also am confident that I am going to planning to read once again yet again in the future. You will not truly feel monotony at any time of the time (that's what catalogs are for about if you check with me).

Excerpt from The Book of Wonders: Or Pictorial Miscellany Crystal Palaces are among the marvels of this marvellous age. They are grander than the palace which the Genius of the Wonderful Lamp is said to have erected for that hero of eastern story, named Aladdin. The grandfathers and grandmothers of the boys and girls who now live, never dreamed of such things. If they should rise from their graves, and be led into the Crystal Palace at New York, they would rub their eyes and look wildly about. Like old Rip Van Winkle, after his long nap in Sleepy Hollow, they would be strangely puzzled; and I am inclined to think they would fancy themselves in fairy-land, or dream-land, or some other strange and mysterious country. But however it would be with them, one thing is certain. The boys and girls of our times do live in the era of crystal palaces; and they want to know something about them, and particularly do they want to know about the one but recently open in the city of New York, a picture of which we have selected as our frontispiece. The idea of building a palace of iron and glass first entered into the brain of Joseph Paxton. He was once a poor boy. When he grew up, he was only a gardener to an English duke. But he had a thoughtful mind. He was industrious, and labored to improve himself. By degrees he made it obvious that he was no common man.
